1. Executive Summary

This report outlines a structured 36-month retirement financial plan for John Freeman and his wife, covering the transition period from June 2026 through May 2029. The model assumes that the household relocates to the island of Florianopolis, Brazil, maximizing the value of passive income streams generated in the United States.

SOCIAL SECURITY TIMELINE CLARIFICATION

Important Timeline Correction: Your official Social Security statement shows that you reach age 62 in December 2028 (benefit of \$1,306/mo), rather than November 2026. Therefore, the first 30 months of your retirement will rely entirely on your passive business income. Fortunately, your business cash flows are robust enough to easily support this timeline.

2. Budget Descriptions (Adjusted for Couples)

To accommodate a couple, standard single-person estimates have been scaled. Specifically, groceries, dining, and private health insurance have been doubled, while rent and utilities are scaled moderately.

7. Strategic Takeaways & Cash Management

- Cash Reserve for Year 1 Start:** During the first 4 months (Jun-Sep 2026), your income is restricted due to credit card debt and the Car 3 payment, creating a cumulative local budget deficit of R\$ 10,210 BRL (~\$2,030 USD). You should maintain a US dollar cash cushion to cover this start-up period.
- Wealth Accumulation:** Starting in Month 5 (Oct 2026), your income shifts permanently into a surplus. Over the 36-month period, you will accumulate approximately \$32,364 USD (R\$ 162,792 BRL) in net savings, even while upgrading to a premium urban expat lifestyle in Year 3.
- Social Security Boost:** Starting in December 2028 (Month 31), the addition of your early Social Security benefit (\$1,306/mo) increases your surplus to R\$ 7,071 BRL per month, ensuring your Year 3 urban expat upgrade is fully funded and highly secure.
- Foreign Exchange Risk:** Keep your business revenue in US dollars and transfer funds to Brazil as needed. Using digital platforms like Wise can save 2-3% on exchange margins and bank fees.
